MARKHOR
PET TREATS

Markhor Pet Treats

Premium pet treats crafted in Pakistan, trusted worldwide

Buyers check the paperwork. Dogs check the rest.

i did this. sorry.

Export-focused

A Pakistani brand built for international standards, with premium, all-natural chews.

One ingredient

No additives. No preservatives. Each chew is exactly what it says it is.

Supply ready

Hygienic, export-grade packing and bulk supply for distributors and importers.

Who we are

A Karachi manufacturer and exporter of natural dog chews. We clean, trim, shade-dry and oven-dry every chew ourselves, for importers, distributors and private-label brands around the world.

Pets deserve what nature already got right, and partners deserve a supplier who answers. We also make chews to your requirement and keep testing new treats.

1
ingredient in each

85°C
for 8 to 10 hours

Global
export, wherever you ship

Why us?

Full traceability

Small-batch production, traced at batch level from source to delivery.

A reliable exporter

Supplying North America, Europe and beyond, on time and consistent from one order to the next.

Priced to compete

Premium chews at a price that helps your brand win, with no compromise on safety.

Built around you

Chews developed to your requirement, new treats always in testing, and private labelling for your brand.

The chew menu

Bully sticks

Braided bully

Trachea

Cow ears

Chicken feet

Beef jerky

Beef tail

Esophagus

Goat ears

Goat feet

our regulars.
need something else?
we'll make it.

Bully sticks

The classic. The one every pet aisle sells.

- One ingredient: 100% grass-fed beef
- Low odour, because it is dried slowly and properly
- High in protein, and a rawhide-free chew
- Long chewing helps scrape off plaque and tartar

this one kept me busy all afternoon.

Texture	Dense, firm, long-lasting
Best for	Medium to large dogs
Size	3 to 12 inches
Chew strength	

Braided bully sticks

Three strands, braided by hand. Made for dogs who destroy everything else.

- Braided before drying, so it lasts far longer
- High in protein, for active, strong chewers
- The ridges give teeth more to work against
- No preservatives, no chemicals

German shepherd

finally, a worthy opponent.

Texture	Braided, extra dense
Best for	Power chewers, large breeds
Chew strength	

Beef trachea

Hollow, ribbed and very, very loud.

- Naturally contains glucosamine and chondroitin
- Crunchy texture that works on plaque and tartar
- Fully digestible, with no artificial additives
- A lighter choice beside bully sticks on the shelf

crunch crunch crunch. the neighbours know.

Texture	Hollow, ribbed, crunchy
Best for	Most dogs, all crunch lovers
Size	30 to 40 pieces per kg
Chew strength	

Cow ears

Big, light and gone quickly. So they sell again quickly.

- 100% cow ear, gently dried, nothing added
- High in protein, low in fat
- Crunch helps clean teeth and massage gums
- Easy everyday treat for any size of dog

bigger than my head. no complaints.

Texture	Thin, light, flexible
Best for	Every size, older dogs too
Size	40 to 50 pieces per kg
Chew strength	

Chicken feet

Small, crunchy and impossible to stop at one.

- Naturally contains glucosamine and calcium
- Crunchy chewing helps reduce plaque
- No additives, preservatives or artificial flavours
- Bite-sized, so it works as a training reward

Texture	Small, crunchy
Best for	Small and medium dogs
Size	25 to 40 pieces per kg
Chew strength	

Beagle

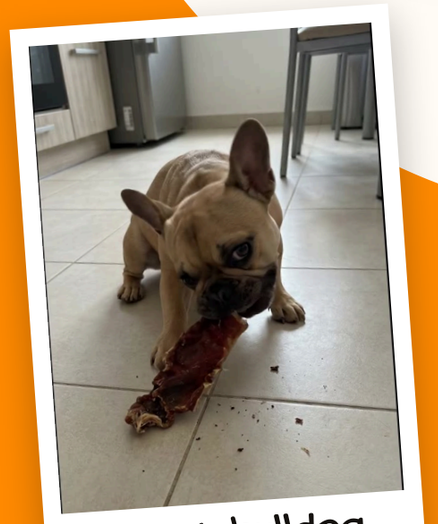
i had one. okay, four.

Beef jerky

Lean beef, sliced and dried. Tears into any size of reward.

- Lean protein with low fat content
- Soft enough to break into training pieces
- No artificial colours or preservatives
- Strong aroma, which dogs happen to love

Texture	Flat, tearable
Best for	Active dogs, training
Chew strength	



French bulldog

i sat. i stayed. i got paid.

Esophagus

Meaty, chewy and soft enough for puppies and seniors.

- Natural source of glucosamine and chondroitin
- High in protein, low in fat
- No additives or preservatives

soft. chewy. mine.

Beef tail

Tough, durable and made to last.

- Bone, cartilage and skin in one tough chew
- Natural collagen and calcium
- Chemical-free, for strong chewers

this tail doesn't wag back.

Beef-sensitive? Go goat.

Goat ears

Light, soft and made for smaller mouths.

- A single-protein alternative to beef or chicken
- High in protein, low in fat
- Digestible and less greasy than many chews

tiny mouth approved.

Goat feet

A hard, firm chew that keeps a dog busy.

- Slowly dried from naturally sourced goat
- Rich in calcium and protein
- Free from additives and preservatives

finally, a hobby.

Pick your stick

Length, to scale	Junior	Regular	Jumbo
3"	120 to 200	80 to 120	50 to 80
5"	70 to 130	50 to 70	30 to 50
6"	60 to 110	40 to 60	30 to 40
9"	45 to 80	35 to 45	20 to 35
12"	30 to 55	20 to 30	14 to 20

Pieces per kg, bully sticks. Custom sizes on request.

Small dog, big stick? no judgement.

Moisture 12% or less

Shelf life 18 to 24 months

Store cool and dry

From raw to ready

Our factory, our hands, real photos. Nothing is rushed, because slow drying is the whole point.

1. Clean and trim

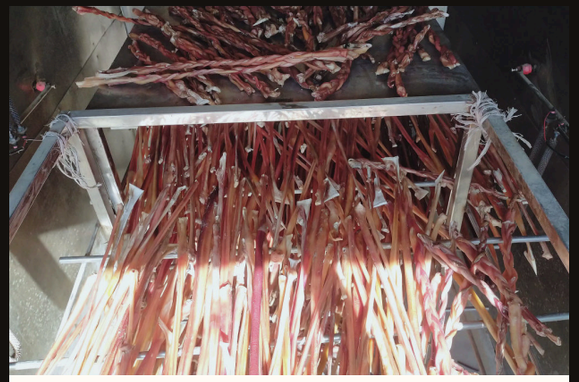
Every piece is cleaned and trimmed by hand.

2. Braid

Braided chews are plaited by hand before drying.

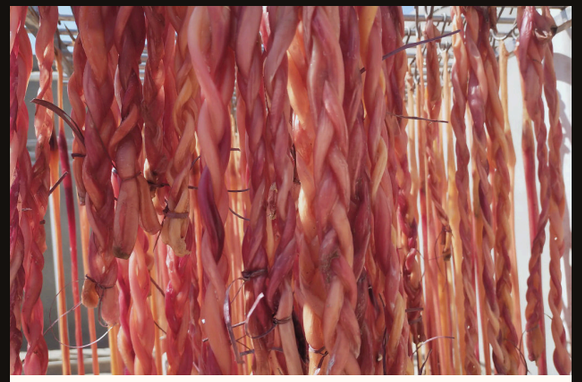
3. Shade dry

Moisture drops slowly in a ventilated drying area.



4. Oven, about 85°C

Controlled dry heat for 8 to 10 hours.



5. Cool and inspect

Cooled, then checked before anything is packed.

6. Cut and pack

Cut to size, sealed in 1 kg packs.
